

Living in motion 2017

2nd exercise. Epicenter

Unit 12. Blanca Lleó. Juan Elvira. Fernando Pino.

Fall 2017

Ex 02 Assignment Deadline: november 6th

KOOZARCH Collage

Connector and Students Epicenter on the A VI

The documents required for the 2nd exercise assignment will show how your strategies related to the research and development made before have been implemented on the site proposed. The program layout need to be expressed in the set of documents.

To explain this in the most accurate way, each team of students will produce at least the following documents:

1. Site plan / Location and how the proposal reacts to the context (estimated scale 1/500)
2. Process Summary. Diagrams, collage, maps, models that help us to identify the proposal strategies, and the process used
3. Plans, the whole set of levels even the roof plan. (with context) 1/250
4. Sections two perpendicular at least and a set of elevations or images of the proposal 1/250
5. Last proposal Model and pictures of it included in the A2 documents

The scales estimated for each type of document are only indicative, you can adapt them depending on your own proposal necessities.

Important note:

The whole set of documents need to be **A2 format printed** and folded to A3 format in order to put it in the folder of each student with the rest of the previous work.

Do not forget to put in every document:

5 or 6 (depending on your selected level)

Name and Surname of the three members in Capital letters

The folder of the course need to be with the completed form included the Portrait Photograph

Although it is not necessary a set of documents for each member of the team to make the presentation of the next 6th, (a single copy is enough), for the final grade of this exercise the complete exercise 2 assignment must be included in the folder of each student of the group.
